

SUMMARY

Senior Product Designer with 5 years across travel, consumer and AI products. I lead ambiguous 0 to 1 and complex workflow problems from discovery and research through prototyping, delivery and iteration, partnering closely with PM, engineering, data and leadership. My work spans BrowserStack's AI testing product from alpha to six-figure ARR, Mondee's discovery-to-booking travel journey, and Airlearn's consumer growth to \$2M ARR across 25+ countries. Strongest where customer needs, business constraints and technical systems intersect.

EXPERIENCE

BrowserStack | Senior Product Designer *Mumbai | Oct 2025 - Present*

- Sole designer for App LCA, taking an AI testing product from early alpha to Beta and six-figure ARR; simplified complex QA workflows across onboarding, test authoring and configuration with PM, engineering and leadership.
- Secured stakeholder buy-in to own, design and co-develop a critical enterprise feature with Claude, shipping in 2 weeks vs. an ~2-month engineering estimate and unblocking an XL+ deal.
- Improved design delivery by streamlining design-to-engineering handoffs and building Buddy, a Figma assistant that reduced repeated clarification by ~40%.

Mondee | Product Designer *Mumbai | Dec 2024 - Oct 2025*

- Owned Aarna's discovery-to-booking experience, translating research into information architecture, conversational flows, travel recommendations and high-fidelity booking journeys through rapid prototyping and engineering collaboration.
- Reduced trip-planning time by 60% (8 to 3 min) by turning AI-generated recommendations into a clearer conversational decision flow.

Airlearn by Unacademy | Founding Product Designer

Bangalore | Sep 2023 - Dec 2024

- \$2M ARR across 25+ countries: Owned user research and design for onboarding, checkout, search, AI voice learning, referrals, leagues and engagement.
- +48% completion and +15% referrals/engagement: Used behavioural analysis, experiments and user feedback with product and data teams.
- Introduced Talk to Una: Took an AI conversational tutor from experiment to a live learning experience.
- Scaled design consistency: Built Airlearn's design system and reusable components across search, lessons, leagues, checkout and AI voice.

Clickked | Lead Product Design Consultant

Remote | Oct 2022 - Aug 2023

- Led product design and systemisation: Built reusable components and shipped 7+ features informed by research with 170+ participants.

Tekion Corp | Product Design Intern

Bangalore | Mar 2022 - Sep 2022

- Designed enterprise automotive workflows and earned organisation-wide recognition for the Hummer EV configurator.

Indian Institute of Technology Bombay | UI/UX Design Intern

Mumbai | Sep 2021 - Mar 2022

- Prototyped an AI EdTech product with Prof. Ganesh Ramakrishnan at IIT Bombay.

SELECTED SIDE PROJECT

Frim | Founder

Built a travel memory product from scratch, leading a four-person team across product direction, design, shipping and user feedback; a Sri Lanka launch onboarded ~84 beta users and lifted sign-up conversion by 6.19%.

EDUCATION

Bharati Vidyapeeth Deemed to be University

B.Tech., Computer Science and Business Systems
CGPA: 9.63/10 | 2019 - 2023

How to Design Better Dashboards?

Ux Collective

CAPABILITIES & TOOLS

Discovery & research: user research, qualitative + quantitative synthesis, usability testing, hypothesis prototyping, experimentation, journey mapping.

Product & systems: complex flows, information architecture, interaction design, design systems, self-service workflows, design QA.

Collaboration: workshops, stakeholder alignment, cross-functional decision-making, async storytelling.

Tools: Figma, Framer, Jitter, Claude Code, Codex, Cursor, MERN.
